

Name:	East Tisted Parish Council			
Activity:	Safe use of pond			
Completed by:	Sandra Nichols, Chairman ETPC			
Hazards	Who is at risk?	Current Control Measures	Additional Requirements	Times cale
Poorly designed or slippery edges, falling in, unauthorised access, drowning.	public	<p>The pond is seasonal and what little water there is, is not very deep. There are two areas where the edge is clearly visible which should avoid accidental mis-footing.</p> <p>Elsewhere there is a wildlife strip of brambles and nettles which acts as a clear deterrent to anyone trying to access the pond.</p> <p>The depth should be kept as shallow as possible.</p> <p>Pond perimeter will be regularly assessed to maintain both areas.</p> <p>Events: organisers must make attendees aware of the dangers of falling into the pond and ensure that a clear barrier is placed around any relevant area</p>		On-going
Initial Assessment Review Date	Risk Assessment assessed, reviewed by the following competent person: Chairman, East Tisted Parish Council <b>annually</b>
