

EAST TISTED VILLAGE WEBSITE

The Web Site was started approximately five years ago and was administered by Basil Lonsdale.

It was thought that the Parish Council owned the Website but in fact Basil owned the site as he set it up.

Three months ago, Basil announced that he would like to stand down and asked if someone else would like to take on the task of Webmaster.

Helen Evison and I agreed to take a look. Following a handover and review we discovered that the Website seemed to be the best kept secret in the village and required an update.

Helen now puts on the PC information and continues to update this on a regular basis.

The site is still currently under review and I will keep you all informed as we progress.

Larry Johnson MBE
