Dear Phil

Just to let you know we plan to remove some of the Ash trees surrounding the pond this week and the remainder in early September. We will also remove 2 Willow volunteers growing in the pond. Once this work is complete we can have a better idea of what is going on and see if any further tree work is required. I have attached a letter to residents surrounding the pond which has been delivered this afternoon for your reference. Any problems please let me know.

Kind Regards

Joe

ROTHERFIELD

10 August 2020

Dear East Tisted Resident

I am writing to inform you that for safety reasons we need to take down the Ash trees around the village pond. The trees have a disease called Ash Dieback (*Chalara fraxinea*) and will start to deteriorate rapidly over the next couple of years and will become difficult to fell and dangerous if not dealt with now.

We have informed the Parish Council and are in discussions with them on taking the opportunity to revitalise the village pond.

We plan to start the work around 11th August 2020 and it may take up to 3 days. Many thanks in advance for your understanding and co-operation during these works. Please do keep a safe distance away whilst they are being undertaken.

Yours sincerely

Joseph Edwards
